

I live in North Woolwich in the Royal Docks, and work as a technical & building manager for a charitable theatre trust. For the last year I've been a volunteer on the Working Group for the Beckton & Royal Docks Community Assembly, helping to prioritise and support local projects, monitoring the progress of the improvements they bring. I'm passionate about improving Newham and making lives better.

Newham suffers from low quality council services with some of the worst recycling rates, highest air pollution and highest poverty rates in the country. Inequality is stark, with some of the poorest living close to some of the richest. As a private renter in a shared flat, I understand that renters, council tenants and leaseholders have all been having a tough time recently. It doesn't have to be like this.

Millions of pounds of infrastructure funding that the council receives from developers is going unspent each year. This should be used for much needed improvements to our public spaces, green spaces, streets, affordable housing, community, sports & youth facilities. This borough can and should be so much better. Newham residents deserve better.

Prepared by Rob Gardner acting as agent on behalf of Rob Callender of 36 Torero Mansions, 2 Honour Lea Avenue, London, E20 1DW.

As a Green mayor I would work tirelessly to ensure that Newham becomes a greener, cleaner, fairer, safer – BETTER place to live, work or visit.

ROB'S PLAN FOR A

GREENER NEWHAM

Protecting: Green spaces and trees for biodiversity and wellbeing

Carbon Neutral: By 2030, warmer homes for lower bills and retrofit insulation schemes

Water Points: At every station and across our borough, reducing single use plastic

End & Reverse Labour's Closures: Save Newham City Farm, Save Stratford Circus – Community assets that serve all. STOP the Silvertown Tunnel!

CLEANER NEWHAM

Reduce Fly-tipping: Free easy to book collections for bulky waste

Bin Collections: More consistent timetable with weekly recycling collections

Street Recycling: Dual litter bins on streets with recycling bins

Capacity: Introduce food waste recycling and ensure communal bins are big enough for the number of residents who use them

FAIRER NEWHAM

Accountability: A transparent council, held to account, working genuinely in your interests

Affordability: More affordable homes from unspent funding

No cuts: Fight against government cuts to local budgets and opposing cuts in Newham

Mental Health Services: Should be robust and support more people

Help Private Renters: Rent control proposals, and fair treatment for leaseholders caught in the Cladding & Fire Safety Scandal

SAFER NEWHAM

Cycling: Double the amount of secure parking for cycles

From A to B: Create safe protected walking, wheeling & cycle routes

Youth Services: Meaningful activities and clubs to support a drop in anti-social behaviour

Streets & Roads: 20mph borough with robust parking enforcement, fairer permit scheme and a crackdown on pavement parking
